

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

1-48. (Cancelled)

49. (New) A method comprising:

(A) receiving a request, over the Internet, to initiate an advertisement campaign, the request comprising:

a maximum amount to spend on the advertisement campaign,  
a designation of an advertisement to be used in the  
advertisement campaign, and

a time period in which the advertisement is to be run;

(B) reviewing the advertisement, and,

when the advertisement is deemed not approved, the  
advertisement campaign is rejected, and

when the advertisement is deemed approved, the advertisement  
campaign is accepted; and

(C) displaying the advertisement during said time period when the  
advertisement campaign is accepted.

50. (New) The method of claim 49 wherein said displaying comprises posting said advertisement to a predetermined URL or a URL specified by said request during said time period.

51. (New) The method of claim 49 wherein said displaying comprising displaying said advertisement on a predetermined wireless device or on a wireless device specified by said request during said time period.

52. (New) The method of claim 49 wherein the receiving further comprises:

providing a plurality of template advertisements;

obtaining a selection of a template advertisement in said plurality of template  
advertisements;

obtaining information to be inserted into the template advertisement; and  
creating the advertisement designated by the request based on the template advertisement and the information to be inserted into the template advertisement.

53. (New) The method of claim 52, the method further comprising:

providing a preview of the advertisement designated by the request.

54. (New) The method of claim 49, wherein the receiving further comprises:

providing a plurality of time periods that are available for the advertisement;

and

accepting a selection of a time period in the plurality of time periods to run the advertisement.

55. (New) The method of claim 49, wherein the advertisement campaign comprises a plurality of advertisements, the method further comprising:

providing an image of each advertisement in the plurality of advertisements in the advertisement campaign; and

receiving instructions to edit the plurality of advertisements.

56. (New) The method of claim 55 wherein the instructions to edit the plurality of advertisements modify:

which advertisements are part of the plurality of advertisements,

a web page that an advertisement in the plurality of advertisements is posted to when the advertisement is run; or

a time period in which an advertisement in the plurality of advertisements is run on a web site.

57. (New) The method of claim 49 the method further comprising:

displaying a summary of a plurality of advertising campaigns, each respective advertisement campaign in the plurality of advertising campaigns defining:

a maximum amount to spend on the respective advertisement campaign,

a designation of one or more advertisements to be used in the respective advertisement campaign, and

a time period in which an advertisement in the respective advertisement campaign is to be run.

58. (New) The method of claim 57 wherein a first advertising campaign in the plurality of advertising campaigns has a status and the step of displaying a summary of the plurality of advertising campaigns comprises displaying the status of the first advertising campaign; and wherein the method further comprises

receiving instructions to change the status of the first advertising campaign from a first state to a second state.

59. (New) The method of claim 58 wherein the first state and the second state are each independently an active state, a suspended state, or a cancelled state, wherein

when said state of said first advertising campaign is the active state, the one or more advertisements specified by the first advertisement campaign are run on a predetermined web site or on a web site specified by the advertising campaign;

when said state of said first advertising campaign is the suspended state, the one or more advertisements specified by the first advertisement campaign are not run on a predetermined web site or on a web site specified by the advertising campaign; and

when said state of said first advertising campaign is the cancelled state, the first advertisement campaign is removed from the plurality of advertising campaigns.

60. (New) The method of claim 49 wherein a cost for said advertisement campaign is set by a time that the request is received.

61. (New) The method of claim 49 wherein the advertisement is displayed on a predetermined web site or on a web site specified by the request as a function of the relevancy of the advertisement.

62. (New) The method of claim 61 wherein the relevancy of the advertisement is measured at least in part by a financial metric.

63. (New) The method of claim 62 wherein the financial metric is the effective cost per Mil (eCPM) for the advertisement.

64. (New) The method of claim 61 wherein the relevancy of the advertisement is measured at least in part by a contextual relevancy of the advertisement to other content on a predetermined web site or a web site specified by the request.

65. (New) The method of claim 49 wherein said displaying (C) further comprises:  
    computing an effective cost per Mil (eCPM) for the advertisement; and  
    displaying said advertisement on a predetermined web site or a web site specified by said request during said time period when the eCPM for the advertisement exceeds the eCPM of another advertisement that is designated for placement on said predetermined web site or the web site specified by said request.

66. (New) The method of claim 49 wherein said advertisement is (i) text only, (ii) text and a URL link, (iii) an icon and a URL link, (iv) a banner ad, (v) a graphic, or (vi) a video.

67. (New) A computer comprising:

    a self-serve user interface comprising:

        instructions for receiving a request, over the Internet, to initiate an advertisement campaign, the request comprising:

            a maximum amount to spend on the advertisement campaign,

            a designation of an advertisement to be used in the advertisement campaign, and

            a time period in which the advertisement is to be run;  
        instructions for reviewing the advertisement, and,

            when the advertisement is deemed not approved, the advertisement campaign is rejected, and

            when the advertisement is deemed approved, the advertisement campaign is accepted; and

        instructions for displaying said advertisement, when the advertisement campaign is accepted, during said time period.

68. (New) The computer of claim 67, further comprising:

a self-serve billing module coupled to the self-serve user interface for billing the originator of the request when the advertisement is displayed on the predetermined web site or on the web site specified by said request order.

69. (New) The computer of claim 68, further comprising:

a back-end system coupled to the self-serve billing module, the back-end system comprising:

a contract management system for managing information about the request;  
and

an advertisement server coupled to the contract management system for serving advertisements to the predetermined web site on the web site specified by the request.

70. (New) The computer of claim 69, wherein the back-end system further comprises:

a log aggregation module coupled to the contract management system for aggregating data about advertisement serves and providing updates of such data to the contract management system.

71. (New) The computer of claim 67 wherein said instructions for displaying comprise displaying said advertisement on a predetermined web site or on a web site specified by said request during said time period.

72. (New) The computer of claim 71 wherein said predetermined web site or said web site specified by said request on which said advertisement is displayed is served to a remote computer that displays said web site in an Internet browser running on said remote computer.

73. (New) The computer of claim 67 wherein said instructions for displaying comprise displaying said advertisement on a predetermined wireless device or on a wireless device specified by said request during said time period.

74. (New) The computer of claim 67, wherein the instructions for receiving further comprise:

instructions for providing a plurality of template advertisements;

instructions obtaining a selection of a template advertisement in said plurality of template advertisements;

instructions for obtaining information to be inserted into the template advertisement; and

instructions for creating the advertisement designated by the request based on the template advertisement and the information to be inserted into the template advertisement.

75. (New) The computer of claim 74, further comprising:

instructions for transmitting a preview of the advertisement designated by the request.

76. (New) The computer of claim 75 wherein said preview is displayed on a remote computer.

77. (New) The computer of claim 67, wherein the instructions for receiving further comprise:

instructions for providing a plurality of time periods that are available for the advertisement; and

instructions for obtaining a selection of a time period in the plurality of time periods to run the advertisement.

78. (New) The computer of claim 67, wherein the advertisement campaign comprises a plurality of advertisements, the computer further comprising:

instructions for transmitting an image of each advertisement in the plurality of advertisements in the advertisement campaign; and

instructions for receiving instructions to edit the plurality of advertisements.

79. (New) The computer of claim 78 wherein the image of each advertisement in the plurality of advertisements in the advertisement campaign is displayed on a remote computer.

80. (New) The computer of claim 78 wherein the instructions to edit the plurality of advertisement modify:

which advertisements are part of the plurality of advertisements,  
a web page that an advertisement in the plurality of advertisements is posted to  
when the advertisement is run; or  
a time period in which an advertisement in the plurality of advertisements is  
run on a web site.

81. (New) The computer of claim 67, further comprising:

instructions for communicating a summary of a plurality of advertising  
campaigns, each respective advertisement campaign in the plurality of advertising  
campaigns defining:

a maximum amount to spend on the respective advertisement  
campaign,

a designation of one or more advertisements to be used in the  
respective advertisement campaign, and

a time period in which an advertisement in the respective  
advertisement campaign is to be run.

82. (New) The computer of claim 81 wherein a first advertising campaign in the  
plurality of advertising campaigns has a status and the step of communicating a  
summary of the plurality of advertising campaigns comprises indicating the status of  
the first advertising campaign; and wherein the computer further comprises  
instructions for receiving instructions to change the status of the first advertising  
campaign from a first state to a second state.

83. (New) The computer of claim 82, wherein the first state and the second state are  
each independently an active state, a suspended state, or a cancelled state, wherein

when said state of said first advertising campaign is the active state, the one or  
more advertisements specified by the first advertisement campaign are run on a  
predetermined web site or on a web site specified by the advertising campaign;

when said state of said first advertising campaign is the suspended state, the  
one or more advertisements specified by the first advertisement campaign are not run  
on a predetermined web site or on a web site specified by the advertising campaign;  
and

when said state of said first advertising campaign is the cancelled state, the first advertisement campaign is removed from the plurality of advertising campaigns.

84. (New) The computer of claim 67 wherein a cost for said advertisement campaign is set by a time that the request is received by said computer.

85. (New) The computer of claim 67 wherein the advertisement is displayed on a predetermined web site or on a web site specified by the request as a function of the relevancy of the advertisement.

86. (New) The computer of claim 85 wherein the relevancy of the advertisement is measured at least in part by a financial metric.

87. (New) The computer of claim 86 wherein the financial metric is the effective cost per Mil (eCPM) for the advertisement.

88. (New) The computer of claim 85 wherein the relevancy of the advertisement is measured at least in part by a contextual relevancy of the advertisement to other content on a predetermined web site or a web site specified by the request.

89. (New) The computer of claim 67 wherein said instructions for displaying further comprises:

instructions for computing an effective cost per Mil (eCPM) for the advertisement; and

instructions for displaying said advertisement on a predetermined web site or a web site specified by said request during said time period when the eCPM for the advertisement exceeds the eCPM of another advertisement that is designated for placement on said predetermined web site or the web site specified by said request.

90. (New) The computer of claim 67 wherein said advertisement is (i) text only, (ii) text and a URL link, (iii) an icon and a URL link, (iv) a banner ad, (v) a graphic, or (vi) a video.

91. (New) The computer of claim 67 wherein said instructions for displaying said advertisement, when the advertisement campaign is accepted, during said time period comprise:

- instructions for incorporating said advertisement into a web page; and
- instructions for serving said web page at a predetermined URL or at a URL specified by said request.

92. (New) A computer program product for use in conjunction with a computer system, the computer program product comprising a computer readable storage medium and a computer program mechanism embedded therein, the computer program mechanism comprising:

- instructions for receiving a request, over the Internet, to initiate an advertisement campaign, the request comprising:

- a maximum amount to spend on the advertisement campaign,

- a designation of an advertisement to be used in the advertisement campaign, and

- a time period in which the advertisement is to be run;
- instructions for reviewing the advertisement, and,

- when the advertisement is deemed not approved, the advertisement campaign is rejected, and

- when the advertisement is deemed approved, the advertisement campaign is accepted; and

- instructions for incorporating said advertisement, when the advertisement campaign is accepted, into a web page.

93. (New) The computer program product of claim 92, wherein the computer readable mechanism further comprises:

- instructions for hosting said web page on a predetermined URL or a URL specified by said request.

94. (New) The computer program product of claim 92, wherein the computer readable mechanism further comprises:

instructions for transmitting said web page to a predetermined wireless device or a wireless device specified by said request.
